This is for the information of all the Sripat Singh College has prepared the list of assignments of the mentees for the academic year 2021-2022. The mentees are informed to sincerely go through the nature of the allotted mentee. They are informed to follow up the mentees on their academic challenges and mental upliftment after a prolonged time of covid situation. The approval list of the mentees and details of the mentees are attached herewith.

### Sripat Singh College, Mentor-Mentee Cell

#### Opening Word:

The policy of "Mentor-Mentee cell" is to create the best possible plan of action which have implemented to create remarkable levels of mentoring students and wants to help them to fulfill and achieve their own set of expectations.

Mentoring our students of Sripat Singh College is thought as a process of building up a relationship as Friends Philosopher and Guide between teacher and student which has been existed for prolonged over the year. In every time our mentors extend their helping hands to provide continuous supports and academic guidance. Some students who are passing through social stress in their life would also get affectionate support from their mentors.

The goal of student mentoring is to help all the students involved in the mentoring program to develop the academic skill and self-confidence which are going to play a crucial role for their own futures.

#### Aims and Objective:

- To ensure the quality performance of the students in academics.
- To build a good and healthy relationship between Mentor and Mentee.
- To deal with the related issues for the holistic development of the students.
- To provide mutual support and congenial learning environment.
- To discuss mental health and stress related issues.
- To motivate and inspire for higher studies and various competitive examination.
- To regulate the academic involvement and assess the outcome.

### Sripat Singh College, Mentor-Mentee Cell

#### Programme Details:

- ☐ Mentors shall be assigned to the mentees right from the first year of programme.
- ☐ A mentor shall not have more than 10 mentees at a time.
- ☐ The mentees preferable by attached to the same mentor for the entire duration of the programme.
- ☐ The mentor shall meet mentee regularly and record the outcome of the meeting in the hard copy. The details about each mentee will be recorded and periodically updated.
- ☐ The mentor shall identify the students performing exceptionally well in curricular or co-curricular activities and report the head of the institution/department for providing further motivation to advance learning.
- ☐ The mentor shall also identify the students whose performance/attendance is below present. The mentor shall interact with the students and try to find out the cause of the problem or an indifferent behavior. If required the mentor will involve the parents, heads of the department for reforming the student.
- ☐ The mentor shall observe and monitor the attendance of the mentee. He/She shall advise and take necessary follow up action with regard to students who do not meet the attendance norms in the college.
- ☐ The mentor shall also keep a track of the academic performance of mentees including continuous assessment, tests and examination and help the mentee through counseling or by arranging tutorial teaching, if necessary.
- ☐ Behavioral and discipline matters
- ☐ Health and Physical well being
- ☐ Achievements, talents and co-curricular activities
- ☐ Stress related issues.

## Sripat Singh College, Mentor-Mentee Cell

### Nature of guidance:

It is vital that all students receive regular and informed guidance, have a wide range of experiences and understand where to get further information and advice. This will be evident through a number of initiatives, including:

- >Citizenship lessons
- >Individual learning reviews and target setting
- >Career Guidance
- >Guidance for A-levels to Higher Education
- >To tackle various academic and Stress related issues
- >Work place learning experiences offered
- >Regular internal communications with students, e.g.: Personal visit and contact via phone
- >Thought of the day and soft skill reinforcement initiatives
- >Community involvement opportunities

◊In some cases the relationship between the mentor and the mentee may be the only stability student knows, and the only time anyone spends quality time with them. Therefore the institute stipulates that a student mentor spend a minimum of one hour every week with their mentees.

## Sripat Singh College, Mentor-Mentee Cell

### Responsibilities of the Mentor:

- ☐ Prepare and maintain Mentor-Mentee Booklet.
- ☐ Prepare a list of contact details of assigned students and parents.
- ☐ Prepare an excel sheet of academic performance.
- ☐ Record of Mentor-Mentee meeting and note down the key points of the meeting.
- ☐ Mentor can prescribe Students counseling if required.
- ☑ To have regular verbal communication with the parents of the mentees and inform them about the mental and academic progression of student.
- ☑ To submit a comprehensive yearly report on issues, handled and resolved by the mentor.
- ☐ Maintain data of students Achievements, academic as well as non-academic.
- ☐ Maintain strict discipline among students.
- ☐ Introduce and discuss the concept of mentor-mentee system with the assigned mentees.
  - >Call a meeting of all mentees and request their necessary details in the designated form note any specific requirements of students and discuss with them the complete schedule of future meeting.
  - >Keep a track of the attendance, academic performance and behavioral aspects of the students by interacting with exam., Department and the hostel authorities etc.
  - >Support students academically and emotionally.
  - >Contact parents to inform the progress of their ward, whenever required and visit the homes of mentees at least twice in the year.
  - >Maintained a record of the progress made by the identified underperforming students and take remedial action whenever required.
  - >To guide students and also to arrange for remedial teaching if required.

## Sripat Singh College, Mentor-Mentee Cell

### Duties/Responsibilities of mentor:

- > Attend meeting regularly
- > Fill personal information in the forms at the time of joining the Mentor-Mentee system
- > Provide details of Attendance, Continuous Assessment, Term End Examination, Co-curricular, Extra-curricular activities to the mentor Whenever asked for
- > Report on feedback in the mentor and seek his/her advice whenever required.

### Benefits of mentoring:

- ◊ Mentoring is a deliberate and conscious action and there for the mentees involved are inspired and feel motivated. It also helps to boost the self-value of those involved in such an activity.
- ◊ Mentoring provides real role models for students who are under their guidance and enables the mentees to learn good skills.
- ◊ It can form part of continuity service activities and come to the benefit of the whole institute as well as the surrounding community.

### Role of Mentoring Coordinator:

- ◊ A member of the institute staff will act as a coordinator for mentees. This person will be someone who wants to take on this role and is approved of by the group not just be a staff member who is just given the role as part of a job description.
- ◊ The role of the coordinator will be to provide guidance and advice for group members and to look after the emotional welfare of the students involved in the scheme.

## COLLEGE INTERNAL EXAMINATION

### Feedback form to evaluate attainment of the program & course outcome

Semester: I

Subject: PHYSICS

Course: CC-1

1. Percentage of the syllabus covered in the class

A. 81%-100%     B. 61%-80%     C. 41%-60%     D. Below 40%

2. Internal assessment process was fair and transparent

A. Strongly agree     B. Agree     C. Partially agree     D. Disagree

3. Tutorials/ Projects works had been provided adequately

A. Strongly agree     B. Agree     C. Partially agree     D. Disagree

4. How far was the teacher prepared for the course?

A. Excellent     B. Good     C. Average     D. Poor

5. Student centric methods (experiential learning, participative learning, problem solving methodologies etc) were adopted to enrich learning experience.

A. Strongly agree     B. Agree     C. Partially agree     D. Disagree

6. On completion, the course delivered knowledge and skill enhancement as per student's expectations during enrollment.

A. Strongly agree     B. Agree     C. Partially agree     D. Disagree

7. After completion of the course how confident are you to pursue higher studies in your respective field

A. Very confident     B. Confident     C. Somewhat confident     D. Not confident at all

8. The course helped you to gain better employability

A. Strongly agree     B. Agree     C. Partially agree     D. Disagree

1. Answer any four question:

(a) How can you classify nanomaterials based upon their dimension? Give an example of one-dimensional nanomaterials.

(b) Show a qualitative plot of density of state of 0D, 1D, 2D, and 3D nanostructures as a function of energy.

(c) What are the main causes behind modified properties of the nanomaterials compared to bulk materials?

(d) What are top-down and bottom up method of synthesis of nanomaterials?

(e) What are the main advantages and disadvantages of photolithography?

2. Write a short note on 'Quantum wire' or 'Tunneling Effect' or 'Density of states of nanoscale materials'. 5

3. Write a short note on 'photolithography' or 'e-beam evaporation' or 'MOCVD'. 5

3) (a) Top-down :-  
Basic principle of top-down approach is to break larger grain sizes into smaller one by the process of machining, milling, grinding etc.

Bottom-up :- Bottom-up approaches in nanotechnology is making larger nanostructures from smaller building-blocks such as atoms, molecules.

(b) Advantages of photolithography :-

- It is very versatile method.
- It is highly suitable for mass production.
- This process is widely used for fabrication of high density and large array size materials.
- It is used in printing electronic boards, some paper, printed plate etc.

Disadvantages of photolithography :-

- It is very expensive because of the cost of machine.
- This procedure cut only material unidirectional, very vertically and is unable to cut horizontally.

3) (c) (i) The crystalline size reduction to to the nanometer scale results in a significant increase of the rate of the interface defects such as GB, grain junctions (JJ) and elastically distorted layers.

(ii) Interfacial properties on a nano-meter scale can be different from those of conventional grain source materials.

(iii) The reduced crystallite size can be limited by characteristic physical lengths such as the mean free path of electrons or the Fermi-de Broglie wavelength for dislocations and so on.

2.5

(d) Photolithography :- Lithography is one of the best used techniques of top-down approaches. The word lithography from a greek word 'litho' that means stone and 'graphia' which means to write so the word 'lithography' literally refers to writing on stone. The word photo means light and in case of photolithography, silicon wafer act as stone and patterns are written on its surface with the help of light sensitive polymer called as a photoresist or mask. The entire process consists of a series of steps which establish the shape, dimensions and location of some parts of a bulk surface or of a thin film. The steps involved in the photolithography process are wafer cleaning, barrier layer formation, photoresist application, soft baking,

Density of states

It is well known that as per band theory of solids in condensed matter physics,  $N$  atoms with  $N$  atomic orbitals form  $N$  molecular orbitals. Each molecular orbital can take two electrons so that there are a total of  $2N$  energy states. These energy states are discrete but for large values of  $N$ , the spacing between them are so small that they can be considered to be continuous forming a continuous energy band. Density of states (DOS) is defined as the number of available energy states per unit energy per unit volume.

The unit of DOS is  $\text{J}^{-1}\text{m}^{-3}$  or  $\text{eV}^{-1}\text{cm}^{-3}$  and the dimension is  $\text{M}^{-3}\text{L}^{-1}\text{T}^2$ .

DOS provides information on how the energy states are distributed in a given solid.

If  $g(E)$  is the DOS, then the total number of electrons in a band,  $N(E)$  is

$$N(E) = \int_0^E g(E) dE$$

where the integration is performed over the entire energy band. This equation assumed that the probability of occupation of the state is 1.

DOS for a 3d uniform solid material —

$$g(E) = \frac{4\pi V}{h^3} \left( \frac{m_e}{h} \right)^{3/2} \sqrt{E}$$

DOS in a 2d uniform solid material —

$$g(E) = \frac{4\pi m_e}{h^2}$$

The figures in the right-hand margin indicate marks. Candidates are required to give their answers in their own words as far as practicable.  
Answer the questions ANSWER ANY 10 1X10 = 10

1. How does the structure of the plant cell wall contribute to its resistance to osmotic pressure?
2. Explain the role of lysosomes in cellular defense and immune response.
3. Discuss the importance of membrane receptors in signal transduction pathways.
4. How does the organization of the Golgi apparatus facilitate protein sorting and modification?
5. Describe the structure of the nuclear lamina and its role in nuclear stability and function.
6. What are the ethical considerations surrounding genome editing technologies in cell biology?
7. Explain the principle of fluorescence microscopy and its application in cell biology.
8. How does electron microscopy differ from light microscopy in visualizing cellular structures?
9. Discuss the advantages of using cell culture techniques in studying cell biology.
10. What are immunofluorescence and immunohistochemistry, and how are they used to study cellular proteins?
11. Discuss the societal impact of biotechnological advances in cell-based therapies and personalized medicine.
12. How can cell biology contribute to addressing global challenges such as food security and environmental sustainability?

With the passing of time and the gradual demand of the society as well as the success rate of the students of general course led the college authority to open the honours in the year 1967-68. At present, the Department has four full time teachers & one SACT. Since the very beginning, the department grew as one of the efficient departments of the college by producing a number of bright students, who have made their mark in different fields. And the demand for our department and presently more than 200 honours students are placed in various courses of the country, which is a matter of pride for the Department.
