Policy Documents on Green Campus/Plastic-free Campus

Green Initiative & Energy Conservation Policy

Green Initiative:

The fundamental requirement of the time is a plastic-free, green, and clean environment. Sripat Singh College works particularly hard to achieve this goal by putting numerous environmental regulations into effect. The IQAC and our Principal oversee and direct the implementation of the college's unique policies. The college thinks students must comprehend the importance of a clean, green environment for their future lives. This can support their development into whole human beings with a sound body and a comprehensive mind. The college has a policy requiring all stakeholders to be included in any green program. Students, faculty, and non-teaching staff all routinely contribute to the upkeep of the green space and a clean, green atmosphere. The college's eco club and NSS unit, which together make up the Green and Energy Volunteers team, take the lead in promoting optimal energy saving, green spaces, and a plastic-free zone on campus.

To achieve the above-stated goals following steps are taken:

- Different awareness programs are organized for the students, faculties, and society.
- An annual Green and Environmental Audit is conducted.
- Spreading consciousness not only within the college campus but beyond the college campus regarding environment and energy.
- Minimizing carbon footprint in the college.
- The campus is maintained as a Plastic Free Zone and No Smoking Zone
- The College will implement waste reduction measures and encourage responsible disposal of different kinds of waste.
- The college will see to the maintenance of greenery and natural ambiance for its sustenance.

✚ Energy Conservation Policy

In recognition of the growing need to address climate change and energy resource management, Sripat Singh College has adopted a comprehensive Energy Conservation Policy. This policy outlines the strategies and actions taken to reduce energy consumption, enhance efficiency, and promote sustainable practices across the campus.

The Energy Conservation Policies of the College are:

- To spread awareness among the students and faculties about the importance of energy conservation.
- To conduct an Energy Audit annually.
- To turn off any electrical or electronic device when it is not in use.
- To replace all CFL tubes with LEDs.
- To install street solar lights on the Hostel Campus.
- To install solar panels on the rooftop.

Subject: Green Initiative for a Sustainable Campus

Dear Sripat Singh College Community,

We are excited to announce a new Green Initiative at Sripat Singh College to enhance our commitment to environmental sustainability. As part of our ongoing efforts to contribute positively to the planet, we are implementing several key measures to promote a greener campus. These measures include:

- 1. Waste Reduction:** We are introducing new waste bins across campus and encouraging everyone to use them properly. Please ensure that you sort your waste into the appropriate bins provided.
- 2. Energy Conservation:** We are upgrading to energy-efficient lighting to lower our energy consumption. Additionally, we urge everyone to switch off lights, computers, and other electronic devices when not in use.
- 3. Water Conservation:** Encouraging water-saving fixtures (like putting-off taps) in restrooms. Please report any leaks or excessive water use to the facilities department promptly.
- 4. Campus Green Spaces:** We will be enhancing green spaces around the campus with more trees and plants. Volunteers are welcome to join our tree-planting events and garden maintenance activities.
- 5. Sustainable Practices:** We encourage faculty and staff to integrate sustainable practices into their daily routines and to consider eco-friendly options for teaching materials and administrative processes.
- 6. Join the Eco Club:** Participate in our Eco Club to help organize and implement sustainability projects.
- 7. Attend Workshops:** Attend workshops and seminars on environmental conservation and sustainability practices.
- 8. Share Ideas:** We welcome your suggestions and ideas for furthering our green efforts. Please send your proposals to [sscollege2009@gmail.com].

The schedule of the activities will be notified shortly.

Your active participation is crucial for the success of this initiative. Together, we can significantly reduce our ecological footprint and foster a more sustainable future.

Thank you for your support and cooperation.

Subject: Waste Management Initiatives- Keep our surrounding clean and make our earth green

Dear Sri Pat Singh College Community,

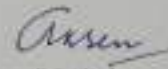

We are excited to announce a new Waste Management Initiatives at Sri Pat Singh College to enhance our commitment to environmental stewardship. As part of our ongoing efforts to contribute positively to the planet, we are implementing several key measures to promote waste disposal. These measures include:

- 1. Recycling and Awareness:** For our future we need to build a temper of clean surroundings. Our objective is to recycling and proper disposal for different types of wastes.
- 2. Composting and Harvesting:** We are happy to announce that our Hostel ground vicinity, we are going to implant composting and harvesting unit for composting organic waste and make it for fodder for fertilizer. Hulladek will be help us to install the whole set up.
- 3. Reduction of plastic use that are non- biodegradable:** Biodegradable waste is manage wisely if it is not contaminated with the non-recyclable plastics. In this regard college will arrange a hands-on working protocol for the users later.
- 4. Clean-up Drives:** Hulladek is our clean partner who efficiently manage the wastes for clean the drive program.

The schedule of the activities will be notified shortly.

Your active participation is crucial for the success of this initiative. Together, we can significantly reduce our ecological footprint and foster a more sustainable future.

Thank you for your support and cooperation.

Reports Of Activities for the Green Initiative for a Sustainable Campus

Alternative Energy Source: Our campus is fully and partially installed with LED lights to reduce the electric consumption and poisonous gas emission to environment. Solar lights and panels with the capacity of night campus illumination is now is available. With zero cost maintenance our campus runs the solar energy for the night campus illumination.

Led is a very good solution for every department. We have installed led lights for the 30 per cent cost cutting efficiency with highest illumination. On the cloudy day practical or office works with others activity we will completely reduce electricity bill by using the led bulb and tubes. Several empty classes are prone to electricity mishaps. We regularly maintain our electricity meter and false connection area to check the unwanted power surge panic.

Degradable and Non-Degradable Waste managements:

Our college campus drives with several waste management system to protect the campus nitty gritty. We have installed Wet and Dry waste baskets at every department for the thoughtful management of waste that comes out from our daily activity. We are also placed both baskets to the corridor and entrance premises for better management of waste and clean the campus.

Department of Sciences are always monitored the hazardable wastes from the reach of common disposal to running sewage. We are specially taking care of hazardous wastes from the reach of the common people that have good societal efforts.

Water conservation is the best practice we were harvesting rain waters in our hostel campus ground. We manifest the vital source of life for the better source of management.

Green Campus Drive: Our campus is full greenery. We used to plant every year with several ornamental and woody plants for fruit and wood plants for shade and productivity.

Differently abled campus premises- We support several initiatives for the differently abled students for their better understanding of room and user-friendly campus and class rooms. Different toilets and urinals for differently abled students are available is our prime concern. We are going to shortly planned and executed divangya toilet for their better feasibility.
