Report on Internship Compulsory Programme: 2025-26 (5th Semester NEP Arts – HR with AI, 4 Credits)

The Internship Compulsory Programme: 2025-26 for the 5th Semester (NEP) Arts students of Sripat Singh College, affiliated with the University of Kalyani, was successfully organized in collaboration with the Indian Institute of Internship (Centre of Vocational & Internship Excellence). The internship, titled "HR with AI", carried 4 academic credits and was conducted over a period of four weeks, from 17 February 2026 to 16 March 2026. The programme was designed to familiarize students with the evolving role of Artificial Intelligence in Human Resource Management, integrating theoretical concepts with practical applications. It aimed to develop students' understanding of modern HR practices, AI-enabled recruitment processes, employee engagement, workforce analytics, performance management, and digital transformation in organizational environments, thereby aligning with the objectives of the National Education Policy (NEP) 2020.

During the internship, students participated in a series of interactive lectures, practical demonstrations, case studies, assignments, and collaborative learning activities. The curriculum focused on AI-driven HR tools, talent acquisition, resume screening, interview assistance, workforce planning, organizational communication, and ethical considerations in the use of Artificial Intelligence within human resource functions. The training sessions were conducted by Mr. Sayantan Chakraborty, Mr. Saswata Ghatak, and Mr. Avik Ghosh, whose expert guidance enabled students to gain valuable practical insights into emerging HR technologies and industry-oriented practices. A total of 136 students successfully completed the internship programme, fulfilling all academic and practical requirements and earning 4 academic credits along with certificates of successful completion.

The Valedictory and Certificate Distribution Ceremony was organized on 14 July 2026 at 2:00 p.m. in Rabindra Sabhakaksha (Room No. 5) in hybrid mode, ensuring participation from both offline and online attendees. The event was attended by college authorities, faculty members, trainers, and students, creating an atmosphere of academic achievement and professional encouragement. During the programme, certificates were distributed to the 136 successful participants, recognizing their dedication and successful completion of the internship. The resource persons highlighted the growing significance of AI in Human Resource Management and encouraged students to continuously upgrade their digital competencies to remain competitive in the evolving employment landscape.

The Internship Compulsory Programme concluded successfully with active student participation and positive feedback from all stakeholders. The collaboration between Sripat Singh College and the Indian Institute of Internship (Centre of Vocational & Internship Excellence) significantly enriched experiential learning by bridging academic knowledge with industry-relevant skills. The successful completion of the programme by 136 students reflects the institution's commitment to providing quality, skill-oriented education and preparing learners for the challenges of the modern workplace. Overall, the internship enhanced students' professional competence, technological adaptability, communication skills, and career readiness, thereby contributing meaningfully to holistic student development under the framework of the National Education Policy (NEP) 2020.

Outcomes of the Programme

- 136 students successfully completed the HR with AI Internship Programme and were awarded Certificates of Completion along with 4 academic credits.
- Developed a comprehensive understanding of Human Resource Management integrated with Artificial Intelligence.
- Enhanced knowledge of AI-enabled recruitment, resume screening, interview assistance, and talent acquisition processes.
- Improved practical skills in workforce planning, employee engagement, performance management, and HR analytics.
- Strengthened digital literacy and the ability to use AI-based HR tools effectively.
- Enhanced critical thinking, analytical, communication, and decision-making skills through practical assignments and case studies.
- Promoted awareness of the ethical and responsible use of Artificial Intelligence in Human Resource Management.
- Improved teamwork, professional communication, and problem-solving abilities through collaborative learning activities.
- Increased employability skills and preparedness for technology-driven workplaces.
- Supported the objectives of NEP 2020 by promoting experiential, skill-oriented, and industry-relevant learning.
