

Library Programmes

❖ User Education Programme:

User education is a very important matter for the newly-arrived students at the college. In this regard, the librarian of the college takes a class in a month and gives information to the students related to document searching, the book issue-return system, reading room used system, and other systems of the library. Every student is introduced to the library staff when they first become members of the library.

❖ Librarian's Day Celebration:

The National Librarian's Day celebrated on 12th August every year on the birth anniversary of Padmashri Dr. S. R. Ranganathan, the father of Library Science in India.
