23. Rajib Mondal

Objective:

The objective of the visit was to:

- i. Impart knowledge about the different plant tissue culture techniques.
- ii. Learn the process of media preparation.
- iii. To provide hands-on training about the basics of tissue culture techniques.

With these objectives in mind, a one-day visit to a tissue culture laboratory at the Department of Botany, University of Kalyani was organized by the Department of Botany, Sripat Singh College, Jiaganj, Murshidabad. Students of 6<sup>th</sup> semester botany honours participated in the programme for partial fulfilment of their curriculum as per University of Kalyani curriculum.

Under the guidance of Professor Zaheed Hossain the students learned about the different tissue culture techniques, steps of plant tissue culture and media preparation. A hands-on training was also provided where the students learned the process of inoculation.
